1. Brief Introduction

The technology parameter of TM8806 Gloss meter is complete according with state standard GB9754-88、GB9966.5 and international standard ISO2813, all items of the performance meet the first class work requirements of state JJG696-2002 (Lens Luster Degree Instrument Measure Test Regulations) .

2. Applications

∵ The surface luster measure for printing ink, paint, bake lacquer, coating and woodwork

∵ The surface luster measure for construction decoration materials: marble; granite; glass chemical polishing brick and pottery brick

∵ The surface luster measure for plastic and sheet

∵ The surface luster measure for other non-metal materials

3. Instrument Characteristics

∵ Fine, light stylish appearance, easy to carry

∵ Completely intelligentized design, single key operation, convenient to use

∵ Automatic adjustment, no need to be hand adjustment

∵ Multi-angles, choose what you want

∵ Long life-span lamp- house, no need to change

∵ Precise measure, excellent repetition performance

∵ LCD digital display, with backlight, accurately display the remainder of the battery

∵ There is buzz sound during operation

∵ Turn off automatically

∵ Can save lots of data and every data can check the measured time

∵ USB interface, and the data can be read by file

4. Technology parameter

Mode	TM8806
Projecting angle	60°
Save data	1245
Measure Range	0-200GU
Spot（mm）	60°:9x15
Value error	Less than ±1.2GU
Environment Temperature	0℃ - 40℃
Relative humidity:	≤ 85%
Power	1.5V
The Measuring window size:	11*35（mm）
Dimension:	136mm*91mm*46mm
Weight	380g
